The Golden Years: David Bowie
Roger Griffin

The exquisitely designed, day-by-day history of David Bowie in the 1970s

The Golden Years: David Bowie chronicles Bowie's creative life during the 1970s, a decade that defined his career. This deep dive looks at the superstar’s life and work in a year-by-year, month-by-month, day-by-day format, placing his works in their historical, personal and creative contexts.

The Golden Years accounts for every live performance: when and where and who played with him. It details every known recording: session details, who played in the studio, who produced the song, and when and how it was released. It covers every collaboration, including production and guest appearances.

This stunning collector's item also highlights Bowie’s film, stage, and television appearances: Bowie brought his theatrical training into every performance and created a new form of rock spectacle. The book follows Bowie on his journeys across the countries that fired his imagination and inspired his greatest work, and includes a detailed illustrated discography documenting every Bowie recording during this period, including tracks he left in the vault. Many of these ended up on reissues and compilations, which are covered comprehensively.

Beautifully designed and featuring photographs and ephemera from Bowie’s 1970s career, The Golden Years is an invaluable addition to the shelves of any true Bowie fan. You may not be able to travel back in time to experience (or re-experience) the Bowie phenomenon, but this gorgeous book is the next best thing.

ROGER GRIFFIN is a graphic designer, artist, and music researcher.

Bowie's final album, Blackstar, released just days before his death, was a number 1 album on the Billboard 200

Bowie's tragic death has led to increased sales for Bowie books—a trend we expect to continue all through 2016

Hand to God
A Play
Robert Askins

“In the rec room at a church in Cypress, Texas, Margery leads her students in a puppet pageant to strengthen their faith in the Bible and evade Satan’s hand. But when the young members of the Christian Puppet Ministry put those teachings into practice, one devout young man’s puppet takes on a shocking personality that no one could have expected. In this hilarious black comedy, a foul-mouthed sock puppet named Tyrone soon teaches those around him that the urges that can drive a person to give in to their darkest desires fit like a glove. In Hand to God, a “true tour de force” (New York Times), Robert Askins has written a play of “unerring perfection” (Huffington Post).

The must-see hit of the 2015 Broadway season, starring Steven Boyer and Geneva Carr, garnered an Obie Award and five Tony Award nominations including Best Play, following its sold out, critically acclaimed off-Broadway runs at MCC Theater and Ensemble Studio Theatre.

ROBERT ASKINS’s Hand to God opened on Broadway in April 2015, following two critically-acclaimed off-Broadway runs, where it was named a New York Times Critics’ Pick and called “the most entertaining show of 2014.” His newest play Permission made its world premiere off-Broadway in spring 2015 at MCC Theater. He has received two EST/Sloan grants, the Helen Merrill Emerging Playwrights Award, and an Arch and Bruce Davis Award for Playwriting. An I-73 and Youngblood alum and graduate of Baylor University, he’s currently at work on two feature film projects and an original comedy series for HBO.

“Mr. Askins’s black comedy about the divided human soul stands out . . . merry and scary and very welcome.”
—Charles Isherwood, New York Times

“An irresistable, intelligent, heartbreaking blood-dark comedy, it’s as disturbing as it is funny, vile as it is violent and, to my mind, better for both.”
—Jesse Green, New York magazine
Mary Louise Wilson became a star at age sixty with her smash one-woman play *Full Gallop* portraying legendary *Vogue* editor Diana Vreeland. But before and since, her life and her career—including the Tony Award for her portrayal of Big Edie in *Grey Gardens*—have been enviably celebrated and varied.

The heart of *My First Hundred Years in Show Business* is in its unblinkingly honest depiction of the life of a working actor. In her inimitable voice—wry, admirably unsentimental, mordantly funny—Mary Louise Wilson has crafted a work that is at once a teeming social history of the New York theatre scene and a thoroughly revealing, superbly entertaining memoir of the life of an extraordinary woman and actor.

MARY LOUISE WILSON has acted on and off Broadway and in films and TV for nearly fifty years. Roles include Vera Joseph in *4000 Miles* at Lincoln Center (Obie Award), Big Edie in *Grey Gardens* (Tony Award), Fraulein Schneider in *Cabaret* (Tony nomination), and Diana Vreeland in *Full Gallop* (Drama Desk Award). Her writing has appeared in *The New Yorker* and the *New York Times* and is the subject of the documentary *She's the Best Thing In It*. She lives in upstate New York.

“Should be a required read for all actors . . . a masterpiece of hilarity and deadpan honesty, and a master class in acting.”
—Kristin Chenoweth, Tony and Emmy Award-winning actor

“A funny, frank, and savvy chronicle of a wonderful life, in the theater and beyond.”
—David Hyde Pierce, Tony and Emmy award-winning actor

“I LOVED this book! It’s fascinating and insightful and authentic up the wazoo.”
—Alan Cumming, Tony Award-winning actor and *New York Times* bestselling author of *Not My Father’s Son: A Memoir*
Finally, a biography of Florence Foster Jenkins, considered the world’s worst opera singer, soon to be portrayed by Meryl Streep in the forthcoming film

“Probably the most complete and absolute lack of talent ever publicly displayed.” —Life magazine

Madame Jenkins couldn’t carry a tune in a bucket: despite that, in 1944 at the age of 76, she played Carnegie Hall to a capacity audience and had celebrity fans by the score. Her infamous 1940s recordings are still highly prized today.

In his well-researched and thoroughly entertaining biography, Darryl W. Bullock tells of Florence Foster Jenkins’ meteoric rise to success and shares the story of the man who stood beside her, through every sharp note.

Florence was ridiculed for her poor control of timing, pitch, and tone, and terrible pronunciation of foreign lyrics, but the sheer entertainment value of her caterwauling packed out theaters around the United States, with the ‘singer’ firmly convinced of her own talent, partly thanks to the devoted attention her husband and manager St Clair Bayfield. Her story is one of triumph in the face of adversity, courage, conviction and the belief that with dedication and commitment a true artist can achieve anything.

DARRYL W. BULLOCK is a writer, publisher, and collector of obscure and obtuse music. He is author of The World’s Worst Records, Volumes 1 and 2.

BIOGRAPHY
Bosch

The Road to Heaven and Hell

Gary Schwartz

The clearest and most complete introduction available to the visionary art of Bosch, replete with splendid reproductions

In his illuminating and always original text, Gary Schwartz, an art historian with an abiding interest in the cultural context of art and its reception, provides concise interpretations of every work, including commentary on many of the most extraordinary details for which Bosch is acclaimed.

The question often asked about the remarkable artist who created the Garden of Delights, The Haywain, the Temptation of St. Anthony and the Last Judgment is where he saw the stunning apparitions that fill his panels.

As the author sees it, Bosch’s strange images were not intended to be deciphered but, in the words of an admirer from his own century, “to confuse, worry and disturb” the viewer. They are meant to be pondered and discussed exactly because they are so weird. In this spirit, Gary Schwartz offers new interpretations of his own to spark discussion and stimulate the imagination of the reader.

This singular book, published in the year of the 500th anniversary of Bosch’s death, includes chapters on society, government and faith in mid-millennium Brabant. Everything is arranged for optimal ease of use, in clear sections with navigational aids. The brilliantly designed double-spreads make sure that each opening tells a complete story. The clear language, accessible style, and beautiful reproductions makes this book essential for anyone interested in the life and art of Bosch.

GARY SCHWARTZ is a well-known American art historian. Most of his work is dedicated to Dutch painters of the seventeenth century, especially Rembrandt, but he is also the author of an earlier book on Bosch for young readers.
Powers of Darkness
The Lost Version of Dracula

HANS CORNEEL DE ROOS (TRANSLATOR); BRAM STOKER, VALDIMAR ÁSMUNDSSON (AUTHORS); DACRE STOKER (FOREWORD); JOHN EDGAR BROWNING (AFTERWORD)

The first ever translation into English of the newly discovered Icelandic adaptation of Bram Stoker’s classic gothic novel Dracula

Powers of Darkness is an incredible literary discovery: In 1900, Icelandic publisher and writer Valdimar Ásmundsson set out to translate Bram Stoker’s world-famous 1897 novel Dracula. Called Makt Myrkranna (literally, “Powers of Darkness”), this Icelandic edition included an original preface written by Stoker himself.

Makt Myrkranna was published in Iceland in 1901 but remained undiscovered outside of the country until 1986, when Dracula scholars were astonished by the discovery of Stoker’s preface to the book. However, no one looked deeper into Ásmundsson’s work until 2014, when researcher Hans de Roos discovered that Ásmundsson hadn’t merely translated Dracula but had penned an entirely new version of the story, with all-new characters and a totally re-worked plot. The resulting narrative is one that is shorter, punchier, more erotic, and perhaps even more suspenseful than Stoker’s Dracula. Incredibly, Makt Myrkranna has never been translated or even read outside of Iceland until now. Powers of Darkness presents the first ever translation into English of this remarkable discovery.

ABRAHAM “BRAM” STOKER (1847–1912) is best known today for his 1897 Gothic novel, Dracula.

VALDIMAR ÁSMUNDSSON (1852–1902) was the founder and editor of the Icelandic literary journal, Lady of the Mountains.

HANS CORNEEL DE ROOS is author of The Ultimate Dracula and numerous articles on Stoker’s masterpiece. He is a recipient of the Research Award of the Transylvanian Society of Dracula.

DACRE STOKER is a Canadian-American writer, athlete, and filmmaker. He is the author of Dracula: The Un-Dead, and is the great-grand-nephew of Bram Stoker.
An astounding literary discovery—Overlook’s publication of *Powers of Darkness* marks the first time in history the Icelandic adaptation of Dracula will be available in English.

- Easy-to-read annotations in the margins add fascinating insight into the Icelandic-isation of *Dracula*, calling out echoes of Icelandic folklore and literary tradition, and also point out where *Powers of Darkness* differs from Stoker’s original.

- Dacre Stoker’s foreword gives *Powers of Darkness* the imprimatur of the Stoker estate.

- *Powers of Darkness* is a breakthrough in *Dracula* scholarship; future academic thought on Stoker and Gothic literature won’t be complete without referring to this text.

- de Roos’s introduction places *Powers of Darkness* in historical context.

What the Luck?
The Surprising Role of Chance in Our Everyday Lives
Gary Smith

The newest book by the acclaimed author of Standard Deviations takes on luck, and all the mischief the idea of luck can cause in our lives

Regression to the mean is a statistics concept that seeks to explain the role of luck in our day-to-day lives. An insufficient appreciation of luck and chance can wreak all kinds of mischief in sports, education, medicine, business, politics, and more. It can lead us to see illness when we are not sick and to see cures when treatments are worthless. Perfectly natural random variation can lead us to attach meaning to the meaningless.

Freakonomics showed more than a million readers how economic calculations can explain seemingly counterintuitive decision-making. Thinking, Fast and Slow helped hundreds of thousands of readers identify a host of small cognitive errors that can lead to miscalculations and irrational thought. In What the Luck?, statistician and author Gary Smith sets himself a similar goal, and explains—in clear, understandable, and witty prose—how a statistical understanding of luck can change the way we see just about every aspect of our lives . . . and can help us learn to rely less on random chance, and more on truth.

GARY SMITH, author of Standard Deviations, is the Fletcher Jones Professor of Economics at Pomona College in Claremont, California. He received his Ph.D. in Economics from Yale University and taught there as Assistant Professor for seven years.

Praise for Standard Deviations

“Entertaining . . . Gary Smith has written a book full of practical criteria and righteous myth-busting . . . there’s a lot to be learned from it.” —LA Review of Books

“Smith’s examples shine a much-needed light on how many ostensibly intelligent folks either intentionally or inadvertently use statistics in questionable ways.” —Huffington Post
The Senecans
Four Men and Margaret Thatcher
Peter Stothard

Renowned author Peter Stothard skillfully blends history, philosophy, and political intrigue

In his sharply observed new book, former editor of The Times Peter Stothard reflects on his experience of the court of Margaret Thatcher—the colorful and controversial figures including David Hart, Frank Johnson, Sir Ronald Millar, and Lord Woodrow Wyatt, men who shared too a fascination for Emperor Nero’s speech-writer and political adviser, Seneca the Younger.

The Senecans is a wistful story of “a believing age,” of loss and change and the relationship between politics and art. The result is nothing short of exquisite.

PETER STOTHARD is editor of the Times Literary Supplement and author of The Spartacus Road and Alexandria, also available from Overlook.

Conversations with McCartney

Paul Du Noyer

The intimate portrayal of one of the most famous men in music, more than half of which is in McCartney’s own words

In June of 1989, Paul Du Noyer was contacted by Paul McCartney’s office in London. They asked him to interview the star; McCartney and Du Noyer had met once before and enjoyed a good rapport.

In the years that followed, Paul Du Noyer continued to meet, interview, and work for Paul McCartney on a regular basis, producing magazine articles, tour programs, album liner notes, press materials, and editorial content for McCartney’s website. Du Noyer has spent more hours in formal, recorded conversation with McCartney than any other writer.

Conversations with McCartney is the culmination of Du Noyer’s long association with McCartney and his music. Drawing from their interview sessions across 35 years and coupling McCartney’s own, candid thoughts with Du Noyer’s observations and analysis, Conversations with McCartney is beautifully written—a sensitive, shrewd portrait of one of the most accomplished artists of our time.

PAUL DU NOYER is an author with more than 30 years’ experience writing about music. He began his career on the staff of the weekly paper NME, and later joined Q magazine and became its editor. He was then the founding editor of the music monthly MOJO and helped launch heat magazine.

Come Together
Lennon and McCartney’s Road to Reunion
Richard White

The never-before-told story of how the Beatles nearly reunited

Beatles fans know the ’70s as a bitter time, with John Lennon and Paul McCartney making pointed and hurtful comments about each other, both in recorded songs (Lennon’s “How Do You Sleep,” is particularly nasty) and public comments. Lawsuits proliferated, as did an explosive correspondence between McCartney and his wife Linda, and Lennon and his wife Yoko Ono.

But most fans don’t know that McCartney and Lennon nearly renewed their creative alliance in the aftermath of the Beatles breakup, and were close to putting aside their difference and reuniting. *Come Together* is a compelling account of a crucial period in post-’60s Beatles history, providing a look at the Lennon-McCartney relationship from an entirely new perspective, emphasizing the efforts these larger-than-life rock stars made to overcome their enmity. It also offers fresh insight on the musical, ambitions and personal motivations for renewing a creative alliance that so nearly happened but was thwarted by circumstances beyond their control.

Worlds Apart
An Anthology of Russian Fantasy and Science Fiction
Edited by Alexander Levitsky
Translated from the Russian by Alexander Levitsky and Martha T. Kitchen

The famous volume with a compelling appeal to fantasy enthusiasts and anyone interested in Russian history

A constant thread woven throughout the history of Russian literature is that of fantasy and an escape from the bounds of realism. Worlds Apart is the first single-volume anthology that explores this fascinating and dominant theme of Russian literature—from its origins in the provincial folk tale, through its emergence in the Romantic period in the tales of Pushkin, Lermontov, and Turgenev, to its contemporary incarnation under the clouds of authoritarianism, revolution, mechanization, and modernization—with all-new translations of the key literary masterpieces that reveal the depth and ingenuity of the Russian imagination as it evolved over a period of tumultuous political, social, and technological upheaval.

Alexander Levitsky, perhaps the world’s foremost expert on this genre, has provided engaging and informative introductions to the selections that simultaneously represent the works of Russia’s best authors—Pushkin, Lermontov, Turgenev, Gogol, Dostoevsky, Bulgakov, and Bely—to writers practically unknown outside the Slavic world such as Derzhavin, Bulgarin, Kuprin and Pilniak.

ALEXANDER LEVITSKY is a professor of Slavic languages and literature at Brown University.

A Novel

Rosie Thomas

By the bestselling author of The Kashmir Shawl, the mesmerizing novel of old friends reunited . . . and torn apart once again

Rosie Thomas, beloved by readers for her brilliantly realized characters and twisting, page-turning plots, turns her “sharp nib” (Washington Post Book World) to a group of old friends in this evocative story of camaraderie and its challenges.

Miranda Meadowe decides a lonely widowhood in her crumbling country house is not for her. Reviving a university dream, she invites five of her oldest friends to come and join her to live, and to stave off the prospect of old age.

To begin with, the omens are good. They laugh, dance, drink and behave badly, as they cling to the heritage they thought was theirs forever: power, health, stability.

But as old attractions resurface alongside new tensions, they discover that the clock can’t be put back. When building work reveals an Iron Age burial site of a tribal queen, the outside world descends on their idyllic retreat, and the isolation of the group is breached. The past is revealed—and the future that beckons is very different from the one they imagined.

Rosie Thomas has twice won the Romantic Novel of the Year Award and is the 2012 winner of the Romantic Novelists’ Association’s Epic Romantic Novel Award.

Maybe I’m Doing it Wrong
The Life and Times of Randy Newman
David and Caroline Stafford

The definitive biography of Randy Newman, master pop satirist and film composer

Randy Newman may be best known, today, for his wistful movie scores, with “You’ve Got a Friend in Me” from the Toy Story soundtrack leading the pack. He’s been nominated for twenty Academy Awards, and has twice won Oscars for Best Original Song.

But Newman was also a quintessentially American pop powerhouse before he turned his formidable talents to scoring films. A songwriter since the age of 17, his earliest compositions were recorded by ‘60s luminaries like The Fleetwoods, Gene Pitney, Jackie DeShannon, and the O’Jays. His own releases, including 1968’s Randy Newman and 1972’s Sail Away, made him a household name, and his work continued to be widely repurposed, with Three Dog Night, Joe Cocker, Tom Jones, and Linda Ronstadt—among others—hitting the charts by covering Newman’s songs. Harry Nilsson famously released an entire album of Newman covers, Nilsson Sings Newman, and the two toured together to great acclaim.

Newman is known for his trenchant wit, and he continues to release satirical songs related to current events. But very little has been written about his personal life, including his marriages and his diagnosis with Epstein-Barr virus. Maybe I’m Doing It Wrong: The Life and Times of Randy Newman is a primer for newcomers to his work and a rewarding handbook for the aficionado. It includes biographical notes, key background facts, figures, tasting notes, asides, diversions, and essays.

The kibbutz is one of the greatest stories in Israeli history. These collective settlements have been written about extensively over the years: The kibbutz has been the subject of many sociological studies, and has been praised as the only example in world history of entire communities attempting, voluntarily, to live in total equality. But there’s a dark side to the kibbutz, which has been criticized in later years, mainly by children who were raised in these communities, as an institution which victimized its offspring for the sake of ideology.

In this spare and lucid memoir, Neeman—a child of the kibbutz—draws on the collective memory of hundreds of thousands of Israelis who grew up in a kibbutz during their height and who intimately share their memories with her.

*We Were the Future* is more than merely a compelling personal account of growing up in the kibbutz movement; it is an unstintingly honest examination of the perils of pioneering and a new lens through which to see the history of Israel.

**Yael Neeman** was born in Kibbutz Yehiam. She is the internationally best-selling author of two novels, *Orange Tuesday* and *Rumors About Love*, and a collection of stories, *The Option*.

**Sondra Silverston** has translated fiction by contemporary authors such as Etgar Keret, Savyon Liebrecht, Aharon Megged, among others.

MEMOIR/JUDAISM
Vignettes of the most influential figures in British and American history, placed next to one another to reveal new likenesses and contrasts in characters.

One of the most significant and enduring texts to have survived from Ancient Greece is *Lives of the Noble Greeks and Romans*, written by Plutarch in the first century AD. In the work, the man known as the “Father of Biography” paired off the most notable and influential figures of the classical world, placing their lives and legacies next to each other, allowing the comparisons and juxtapositions to reveal new truths about famous men his readers already knew and revered. He compared Demosthenes with Cicero, Alexander the Great with Julius Caesar; the result was an intellectual masterpiece still referred to by historians today.

In *A Modern Plutarch*, Robert Lloyd George applies this model of biography to many of the most recognizable figures, new and old, of American and British history. George compares select politicians, generals, scientists, and social and religious activists, drawing parallels between their lives and minds while revealing the traits that made them unique.

**Robert Lloyd George** is the author of several books, including *David & Winston*, also available from the Overlook Press.

Praise for *David & Winston*

“Readers who love to read about politics also love the personal angle to political friendships, and George’s exemplar should tap the segment interested in British parliamentary history.”

Citizen Jack
How Jack White Built an Empire from the Blues
Nick Hasted

The only biography of Jack White, widely considered the twenty-first century’s most vital rock star

Jack White is the “coolest, weirdest, savviest rock star of our time” (The New York Times Magazine). White is best known as the frontman for The White Stripes, where his guitar virtuosity and shrieking rock vocals outstripped speculation about his relationship with his drummer and ex-wife Meg White, who he often insisted was his sister.

Not content with launching a blues-rock revival in the early 2000s, White went on to collaborate with famous artists, including Loretta Lynn, Tom Jones, and Bob Dylan. In 2006, White founded The Raconteurs with Brendan Benson, and in 2009 founded The Dead Weather with Alison Mosshart. He starred in the Academy Award-winning film Cold Mountain, married (and split up with) supermodel Karen Elson, and rejuvenated a flagging Detroit art scene by making his hometown the headquarters of his record label, Third Man Records. But White is also a master of reinvention, trying on personas as they fit his changing tastes and priorities. The real Jack White—born John Anthony Gillis in 1975—can be difficult to pin down.

Citizen Jack is the only book yet to tell the full story of one of the twenty-first century’s most influential rock stars, based on interviews from people close to White, including former bandmate Brendan Benson and Third Man artists such as Neil Young and Seasick Steve. Not only that, it is the definitive history of the Detroit scene in which The White Stripes first flourished. No other book goes as deep into the lore of Jack White and The White Stripes.

The Edge Becomes the Center
An Oral History of Gentrification in the Twenty-First Century
DW Gibson

Winner of the 2015 Brooklyn Eagles Literary Prize for Nonfiction, the groundbreaking oral history of gentrification

For years, journalists, policymakers, critics, and historians have tried to explain just what happens when new money and new residents flow into established neighborhoods—yet we’ve had very little access to the human side of gentrification.

The Edge Becomes the Center captures, in their own words, the stories of the many kinds of people—brokers, buyers, sellers, renters, landlords, artists, contractors, politicians, and everyone in between—who are shaping and being shaped by a rapidly changing New York City.

In this extraordinary oral history, DW Gibson takes gentrification out of the op-ed columns and textbooks and brings it to life, showing us what urban change looks and feels like by exposing us to the voices of the people living through it. Drawing on the plainspoken, casually authoritative tradition of Jane Jacobs and Studs Terkel, The Edge Becomes the Center is an inviting and essential portrait of the way we live now.

DW Gibson is the author of Not Working: People Talk About Losing a Job and Finding Their Way in Today’s Changing Economy. His work has appeared in publications such as the The New York Times, The New York Observer, The Daily Beast, BOMB, and The Caravan. Gibson serves as director of Writers Omi at Ledig House in Ghent, New York, which is part of the Omi International Arts Center. He lives in New York City with his wife and daughter.

"Impressive and multifaceted . . . Gibson manages to capture a global city in flux.”
—Publishers Weekly (starred review)

"Mr. Gibson is a skilled and sensitive interlocutor...[he] lets the city speak for itself, and it speaks with charm, swagger and heartening resilience.” —New York Times Book Review
The Diet Myth
Why the Secret to Health and Weight Loss is Already in Your Gut
Tim Spector

The revealing new book that shows the key to health and weight loss isn’t which foods we eat—it’s the microbes already inside us

What should we eat? It’s a simple and fundamental question that still bewilders us, despite a seemingly infinite amount of available information on which foods are best for our bodies. Scientists, dietitians, and even governments regularly publish research on the dangers of too much fat and sugar, as well as on the benefits of exercise, and yet the global obesity crisis is only worsening. Most diet plans prove to be only short-term solutions, and few strategies work for everyone. Why can one person eat a certain meal and gain weight, while another eating the same meal drops pounds? Part of the truth lies in genetics, but more and more, scientists are finding that the answer isn’t so much what we put into our stomachs, but rather the essential digestive microbes already in them.

Drawing on the latest science and his team’s own pioneering research, Tim Spector explores the hidden world of the microbiome, and demystifies the common misconceptions about fat, calories, vitamins, and nutrients.

TIM SPECTOR is Professor of Genetic Epidemiology at King’s College London and a consultant physician at Guy’s and St Thomas’ Hospital. He set up the Twins UK register in 1993, the largest of its kind in the world, which he continues to direct. He has appeared in numerous television documentaries and is often interviewed by the media on his team’s research.

“Spector thoughtfully explains the strengths and weaknesses of the available evidence, drawing on research on gut microbes as well as his long-running studies on the genetics of twins and his own often hilarious experiments with various diets.” —New York Times Book Review

“The Diet Myth is a fascinating and original look at the impact of food on our bodies, underpinned by cutting-edge research.” —Dr. Michael Mosley, author of the #1 New York Times Bestseller The FastDiet

Life? Or theatre?

CHARLOTTE SALOMON

The first complete edition of the art of Charlotte Salomon

“T
his is my whole life,” Charlotte Salomon said when she gave her French doctor and friend the enormous suitcase containing her life’s work for safe-keeping. Life? Or theatre? is the result of months of restless work in a small room in a hostel during which Charlotte Salomon appealed to everything inside her: her perfect visual memory, her insight into family and friends, her education at the Art Academy in Berlin and, most of all, the inspiration of her short but intense love for her stepmother’s singing teacher. That is how Charlotte created this singular work of art, a graphic novel avant la lettre, consisting of 781 gouaches and hundreds of drawings—a mixture of paintings, texts, and musical annotations—which together tell the story of a family between World War I and 1940. In more than one gouache, influences of George Grosz and Modigliani are recognizable, while others are foretastes of the contemporary graphic novel. The work shimmers with beauty and precision.

This timeless masterpiece, now published for the first time in a complete edition including several recently discovered gouaches, is truly a unique work by an artist whose life inspired not only David Foenkinos’s internationally bestselling novel Charlotte, also available from Overlook, but also a movie, a documentary, an opera and a ballet.

CHARLOTTE SALOMON (Berlin 1917-Auschwitz 1943) was the only child of surgeon Albert Salomon and Fränze Grunwald, and was raised in an assimilated Jewish family. In 1935, she was admitted to the Art Academy. When the persecution of Jews intensified after the Kristallnacht, she fled to her grandparents in France. After the beginning of the war, she and her grandfather were sent to the camp Gurs, in the Pyrenees. In July they were allowed, because of his advanced age, to return to Nice, where a doctor advised Charlotte to start again with her creative work as a way to help process her experiences; tragedy, death, her world collapsing around her, she completed Life? Or theatre? in 1942.

ART
The pioneering, incisive, lavishly illustrated survey of noir on television—the first of its kind

Noir—as genre, style, movement, or sensibility—has its roots in the hardboiled detective fiction of the likes of Hammett and Chandler; films adapted from the works of these authors were among the first from the wave of post-WWII Hollywood releases that in 1946 were, separately, tagged “film noir” by French cinéastes Nino Frank and Jean-Pierre Chartier. But film wasn’t the only medium with a taste for a dark story. Hundreds of live dramas were staged on television in the 40s and 50s—from the works of Chandler, Hammett, Cornell Woolrich, David Goodis, W.R. Burnett, Dorothy B. Hughes and others, featuring brooding detectives and femmes fatales, gangsters and dark deeds. Dark storytelling increasingly gained traction on the small screen, with some key differences from film, not the least of which is the continuing hero, back week after week, to address a new disruption of the social order.

In TV Noir, noted film and television historian Allen Glover has written the first complete study of the subject, surveying the TV programming that evolved from the film noir heyday. Deconstructing its key elements with astute and informed analysis, from NBCs adaptation of Woolrich’s The Dark Angel and the anthology programs of the 40s and 50s to the classic period of Dragnet, M Squad, and 77 Sunset Strip and the neo-noirs of the 70s and 80s including The Fugitive, Kolchak, and Harry O., Allen Glover presents the essential volume on TV noir.

Allen Glover is a film and television historian. As a curator at the Paley Center for Media, he specialized in creating exhibitions on such cultural icons as David Bowie, Rod Serling, Robert Altman, Buster Keaton, and Lenny Bruce. He lives in Los Angeles.
• Rounding out the work are the essays “Chaos and Order,” “The Noir Setting,” “Light and Shadow,” and “The Investigative Journey.”

A Novel
Kate Howard

The passionate and elegantly dark tale of desire, obsession, and deceit by a talented new author

In this beautifully written debut, novelist Kate Howard proves herself to be a talent to watch, spinning a striking historical yarn packed with suspense and period detail worthy of Kate Mosse, Jessie Burton, or Tracy Chevalier.

Flavia was born with a birthmark covering her face, in the shape of a bird in flight. A cloth dyer’s daughter, she grows up in a little house in the woods where her mother—ashamed of her mark—can keep her far away from prying eyes. But on the night before her younger sister’s wedding, Flavia does something drastic, something that will draw her into a much wider and stranger world than she could have imagined from her secluded family cottage. Flavia finds herself at the convent of Santa Giuliana, just outside the city walls of Perugia.

Rich in description and character, Kate Howard’s stunning debut novel is painted against a vivid historical landscape with themes and characters relevant today, tackling issues of belonging, female identity, and the perception of beauty. It cannot fail to move.

KATE HOWARD has lived and worked in Italy for many years, but now lives in England. She works at the University of Sussex. The Ornatrix is her first novel.

The United States of Soccer

The MLS and the Rise of American Soccer Fandom

Phil West

The first history of the rise of United States soccer—a sport now broadcast on NBC—published in time for the MLS’s 20th anniversary season

For ages, soccer in America has been a sport you play in school, but never watch. But American interest in soccer is growing, with fans filling stadiums to capacity to cheer for their favorite national and international teams and an aggressive Major League Soccer (MLS) adding five new teams in as many years to the league. The Women’s World Cup final in July 2015 was the most-watched soccer game in U.S. history, with nearly 27 million viewers, and English Premier League games are now broadcast on NBC.

The United States of Soccer tells the riveting story of American soccer, looking at the first 20-plus years of the MLS (from its 1993 founding), the growing viability of soccer in the United States through an increasingly-relevant professional league, and the evolution of American soccer fandom. While support for soccer in the United States still peaks with the national team and the World Cup, the book illustrates that the MLS has been instrumental in the growth and development of American interest in soccer, and will play an integral role in the future in leading more fans to the game.

PHIL WEST is a journalist whose articles have appeared in the The Los Angeles Times, Seattle Times, and The Austin Chronicle, among others. He lives in Austin, Texas.

- World Cup popularity is burgeoning in the US, with people watching the games in record numbers
- Attendance at MLS games has risen steadily for 14 years, with more than 6 million people attending games in the most recent seasons

El Sistema

Music for Social Change
Edited by Christine Witkowksi
Preface by Dr. José Antonio Abreu

The only book created to inspire and guide music educators implementing “El Sistema” in their communities

El Sistema—“the system”—is a music education phenomenon. Since its inception 40 years ago, over a million Venezuelan children from many different socioeconomic backgrounds have participated in its mission of “social change through music.”

Ironically, the essence of The System is that it is a non-system—at least insofar as there are no rigid rules or guidelines. Instead, it is based on a tried and tested philosophy that practitioners need to mold and adapt as best serves their communities. While the flexible nature of El Sistema is central to its original success and its worldwide adaptability, the lack of any clear-cut system can be daunting for those trying to understand, implement or develop a philosophy that Sir Simon Rattle has called “the most important thing happening in the world in classical music.”

El Sistema therefore offers practical information for those seeking knowledge, inspiration, or guidance for adapting El Sistema to widely divergent socio-economic settings, particularly within the USA. Designed as a collection of essays, it explores the voices and experiences of teachers, leaders, parents, and experts from related fields with the hope of inspiring actions, both large and small, to advance social change through music.

George the Dog, John the Artist

A Rescue Story

John Dolan

The inspiring true story of a canine friendship that led one man from life on the streets to artistic renown

For years, John Dolan had been living rough, trying his best to get by. Born and bred in the projects of East London, his early life was marked by neglect and abuse, and his childhood gift for drawing was stamped out by the tough realities outside his front door. As he grew older, he turned to petty crime to support himself and ended up in prison. On coming out, he soon found himself on the streets, surviving day-by-day, living hand-to-mouth.

It wasn’t until he met George, a homeless Staffy puppy, that his life changed for the better. To begin with, George was a handful: he had been abused himself and was scared of human contact. Soon, John and George became inseparable. It was then that John decided to pick up his long-forgotten gift for drawing, sitting on the sidewalk for hours at a time, sketching pictures of George that he would sell to passers-by.

With his best friend by his side, and a pencil in his hand, John suddenly found his life’s calling.

JOHN DOLAN is a critically-acclaimed artist living and working in Shoreditch, East London. For the past three years he and his dog George have sat out on Shoreditch High Street, while John sketched the world around him. Some of his sketches formed part of John’s hugely successful first solo show, George the Dog, John the Artist, in September 2013.

“Somber and absorbing” (*Interview*), the new novel by the author of *I Smile Back*, now a feature film starring Sarah Silverman

The acclaimed author of *I Smile Back*, Amy Koppelman is a novelist of astonishing power, with a sly, dark voice, at once fearless and poetic. In Koppelman’s new novel, Dr. Susanna Seliger is a renowned psychiatrist who specializes in treatment-resistant depression. The most difficult cases come through her door, and Susa is always ready to discuss treatment options, medication, and symptom management but draws the line at engaging with feelings. A strict adherence to protocol keeps her from falling apart.

But her past is made present by one patient, Jim, whose struggles tear open Susa’s hastily stitched-up wounds, revealing her latent feeling that she could have helped the people closest to her, especially her adored, cool, talented graffiti-artist brother.

Spectacularly original, gorgeously unsettling, *Hesitation Wounds* is a novel that will sink deep and remain—like a persistent scar or a dangerous glow-in-the-dark memory.

AMY KOPPELMAN is a graduate of Columbia’s MFA program. Her writing has appeared in the *New York Observer* and *Lilith*. She lives in New York City with her husband, Brian Koppelman, and their two children. Her previous novels are *A Mouthful of Air* and *I Smile Back*, which was a film starring Sarah Silverman.

“Full of brilliantly observed pain and truth.”
—David Duchovny, *New York Times*-bestselling author of *Holy Cow*

“Throughout this slim novel, Koppelman maintains a mood that could, in lesser hands, dissolve into melodrama, but she succeeds with careful observations in precise and potent language.” —*The Rumpus*

In Curvology, researcher David Bainbridge uses his scientific know-how to get to the bottom of this anatomical mystery and to explore the social and psychological consequences of our cultural fixation with curves and fat.

The enchanting love story—a tale of cultural corruption, fine art, and great books amidst London’s super-wealthy Russian immigrant community

Charmingly written and inspired by The Great Gatsby, Gorsky is a vicarious thrill—an ode to cosmopolitan taste and a brilliant re-imagining of a powerful classic.

On a rainy afternoon in London’s old Chelsea, a charming multi-billionaire Russian oligarch, Gorsky, walks into an ailing bookshop and writes the first of several quarter-of-a-million pound checks. Gorsky needs a tasteful collection of Russian literature to woo a long-lost love—no matter that she happens to be married to an Englishman. How Ordinary People Are Changing the Face of Discovery
Caren Cooper

The engaging history of the people whose contributions to scientific pursuits make us rethink the meaning of the word “scientist”

Think you need a degree in science to contribute to important scientific discoveries? Think again. All around the world, in fields ranging from astronomy to zoology, millions of everyday people are choosing to participate in the scientific process. Working in cooperation with scientists in pursuit of information, innovation, and discovery, these volunteers are following protocols, collecting and reviewing data, and sharing their observations. They are our neighbors, our in-laws, and people in the office down the hall. Their story, along with the story of the social good that can result from citizen science, has largely been untold, until now.

Citizen scientists are challenging old notions about who can conduct research, where knowledge can be acquired, and even how solutions to some of our biggest societal problems might emerge. In telling their story, Cooper will inspire readers to rethink their own assumptions about the role that individuals can play in gaining scientific understanding and putting that understanding to use as stewards of our world.

CAREN COOPER is the assistant director of the Biodiversity Research Lab at the North Carolina Museum of Natural Sciences, where she studies bird ecology and conservation through the use of citizen science.

“Captivating . . . Toner draws on Seneca, Pliny the Younger, and various Roman chroniclers to create in Falx a credible portrait of the affluent slaveholder—smug, smart, sardonic.” —Bloomberg

“By turns charming, haughty, and brutal . . . Toner, a classicist, comes up with an ingenious device. He creates Marcus Sidonius Falx, an ancient-Roman nobleman and the imagined author of a treatise on how to buy, breed, and train a slave.” —The New Yorker

“Thought provoking . . . written in a tone that feels both educated and archaically brutal . . . [Toner’s] history and commentary provides context for the dirty institution upon which modern civilization is built.” —Publishers Weekly
